# Invention Convention Texas 2023

## Who can participate?

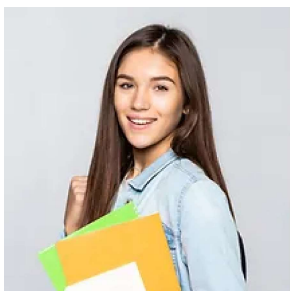

### STUDENT CATEGORIES

Elementary

Middle School

High School

12+

### TEAM MEMBERS:

Students may enter individually or may enter as a team of up to 4 members.

## Project Phases

Students develop an invention/innovation project by learning and following the 7 steps of the invention process. They can start a project from scratch or adapt a science or maker project.

**1 IDEATE**  
your invention

In this phase, students will identify a problem in their environment, understand the problem through research and conceive different solutions.

**2 DESIGN**  
your invention

In this phase, possible solutions, their physical design and functionalities are projected and modeled. A detailed drawing or plan of the invention is made.

**3 PRESENT**  
your invention

In this phase, students document their entire project and present their prototype invention to a team of judges at a state event. 5 team winners of the state event will attend the national event.

**4 START**  
your venture

In this phase the best 30 teams in Nationals will represent the USA at the International Event.

## Invention Phases

When?

Event Timeline

Registration closes:  
**March 15th**
